

CURRICULUM VITAE

Simone Dorsch

Education

1993 Bachelor of Applied Science (Physiotherapy), The University of Sydney

2000 Master of Health Science (Neurological Physiotherapy), The University of Sydney

2012 Doctor of Philosophy, The University of Sydney

Current Employment:

Australian Catholic University, February 2012 to present, Lecturer in Physiotherapy, School of Allied Health

Director of the StrokeEd collaboration, 2010 to present, presenter of Stroke education workshops including;

- Evidence Based Retraining for Lower Limb skills after Stroke, a 3-day workshop taught nationally and internationally
- 1000 reps a day, a one-day workshop taught nationally and internationally face to face and online
- The Walking workshop, a one-day workshop taught nationally and internationally face to face and online
- The Coaching workshop, a one-day workshop taught nationally and internationally face to face and online
- The Balance workshop, a one- or two-day workshop taught nationally and internationally face to face and online
- Electrical Stimulation after Stroke, half day and 1-day workshops taught nationally and internationally

Professional Experience

Experience in curriculum development

Development of movement science and neurology units for the Bachelor of Physiotherapy programme at the Australian Catholic University

Development of workshops for the StrokeEd collaboration, 1, 2 and 3 day workshops on Stroke and aged care rehabilitation, these workshops are presented regularly nationally and internationally

Co-ordinator of the development of the Neurology level 1 and 2 workshops for the Australian Physiotherapy Association

Co-ordinator of the development of the Level 3 EBP workshop, developed by the PEDro Education and Training committee for the Australian Physiotherapy Association

Clinical experience

Over 20 years experience in Traumatic Brain Injury and Stroke rehabilitation

2000 to February 2018, various positions at Bankstown Hospital Stroke Unit including 8 years as a Neurology Clinical Expert in physiotherapy

Professional Awards

Australian Postgraduate Award 2007

ACU finalist in National 5-minute research pitch competition 2017

ACU Vice-Chancellor's award for Excellence in Teaching and Learning 2018. This is a national University award with only one recipient, or team, being awarded each year in the undergraduate teaching category. The Neurology Team were the successful recipients of this award in recognition of the development of neurological physiotherapy units of study that are underpinned by science and evidence-based rehabilitation. These units use blended and flipped learning strategies to facilitate the acquisition, application and assimilation of neurological rehabilitation skills for physiotherapy students.

Honorary professional positions

1996 -2002	Committee member of Neurology Study Group of the Australian Physiotherapy Association
2001 -2002	Chairperson of National Neurology Group (NSW chapter)
2003	NSW representative on the National Neurology Group committee
2008-2009	Member of scientific committee for National Neurology Conference of the Australian Physiotherapy Association 2009
2012-2014	Committee Member of the National Neurology Group (NSW chapter)
2013-2014	NSW representative on National Neurology Group committee
2017-2019	Chairperson of NSW chapter of the National Neurology Group committee and NSW representative
2018-2019	Development of Educational resources for the National Stroke Foundation for the InformMe website
2019-2020	Chairperson of the PEDro Education and Training committee
2020-2022	Working party for the Stroke Living guidelines, Strength and Standing balance guidelines
